PHP: Ohio Physicians Health Program

Why do you have an interest to serve on the FSPHP Board of Directors as a board member or officer?

I believe that I have valuable skills and experience to assist FSPHP through their accounting transitions and future financial reviews and financial audits. I also believe that I could provide a strong support to the FSPHP Executive Director through this process and assist with the development of appropriate internal controls and development of financial policies to support the growth, accountability, and public standing of FSPHP.

What is your vision for the next 2-3 years for the organization? (Please include any thoughts you have on objectives for accountability, consistency and excellence measures, as well as funding initiatives.)

I envision that FSPHP will continue to grow membership and solidify it's position among the medical community as the COVID-19 pandemic has brought many of the issues PHPs address front and center. I believe that a strong national presence is important to support all PHP's existing and growing in their respective states. I believe that improved budgeting processes, transitioning to GAAP accounting, and the consistent preparation of financial statements is an important part of this growth. I would love to see FSPHP setting the standard of how PHPs (that are nonprofit organizations) should operate with respect to financial accountability and policies.

What skills do you bring to the organization?

I have a both a Bachelor's Degree and Master's Degree in Business Administration, specializing in Finance and Human Resources. I also have over 15 years of nonprofit leadership experience, serving as the Executive Director of the OhioPHP where my duties include assistance in the preparation of financial statements, participation in annual financial audits, the development of financial internal controls, policy development, and providing adequate information for the financial oversight of the organization.

If applicable, do you agree to run on a contested ballot? Yes: No:
